# Dear \_\_\_\_\_,

We are looking forward to expanding into your local market, so we are looking for some partners to sell our products.

Our company produces a natural sausage casing in compliance with the international quality standard ISO 22000. Every batch is subject to double check by veterinary specialists, who study them thoroughly for any possible defects and diseases, and then issue a veterinary certificate directly to the Customer.

Our team works hard to meet the preset parameters of the pork and beef casing in accordance with the European standards. We carefully control length of sections, check product quality at all stages for any possible defects and give a quality certificate for final product.

We take advantage of manual labor, and all the specialists come after a careful candidate selection on a competitive basis. Our company works with wholesale traders, HoReCa and network retailers.

We grant our partners exclusive rights, which allow them to sell the full range of our products at the assigned territory.

In order to find out more about us and estimate a mutual profit of the partnership, we invite our partners to look into a short business proposal and calculate a value of the first consignment.

For further details, please, send us an e-mail to [info@agrocasing.ru](mailto:info@agrocasing.ru) with your company details and a brief description of your activities.

Best wishes and regards,

Mr. Alexei Muzolev

# About us

We offer a wide range of products from Russia, Europe and the Americas. The company has a full cycle production facilities and produces natural beef and hog casings. Our manufacturing sites are located in an ecologically clean area of the Kaluga region. Hard work daily work of the employees and technological process production improvement makes possible to create a product that satisfies all the clients' needs. This is what makes our company successful. Our company produces the natural casing in accordance with the ISO 220000 international quality standard. Each batch is double-checked by our veterinary specialists for any possible defects and diseases, and also issue a veterinary certificate that goes directly to the buyer. We is included into the list of Russian enterprises that have gone through veterinary and sanitary inspection for compliance with the requirements of the Eurasian Customs Union ("Cerberus IP") and the European Union

## Settings control

All casings produced in our company full comply with the National Standard. We monitor the casing integrity, part length and diameter stability. This allows us to sell a quality product.

## Quality control

We process quality control at every production stage. All production is certified. ISO 220000 quality certificate "Food safety management system – a requirement for any enterprise in the supply chain", certificate of conformity, Customs Union declaration of conformity.

## Broad supply geography

"Agro-Casing" LLC is a certified company and supplies products to the counties of the Customs Union and the European Union.

## Reliable partner

We appreciate our business partner and client relations to be honest and transparent. The quality of our natural casing allows us to use it on automatic and semi-automatic production lines. The batch length of the product corresponds to the declared measurement.
